1. Preamble

Tenders under two bid systems, i.e., Technical Bid (Pre-qualification requirement) and Financial Bid, from the eligible Bidders will be received through e-procurement portal of the Government of Karnataka by the Greater Bengaluru Authority for the following:

1.1 Nature of Service: Providing, Supply and Installation of Various Necessary Facilities such as Shamiyana, Stage, Sound System, Lightings, Cardamom Garland, Shalu, Dried Fruits, Snacks, Fireworks-Pyrotechnics, Bands, Awards, Cultural Representation Parade, Themed Stalls and Other Facilities for "Freedom Habba-2026" and various Programs to be celebrated on 15.08.2026 at Vidhana Soudha premises.

1.2 Period of Agreement: From the date of signing the work order to completion of event.

1.3 Earnest Money Deposit (EMD): Tender shall accompany an Earnest Money Deposit of **Rs. 7,50,000.00/-** through the designated e-procurement portal. **Tender Processing Fee** as specified in e-procurement portal shall be paid in the e-procurement portal using either of the following modes:

i. Net Banking
ii. Credit Card
iii. Direct Debit
iv. National Electronic Funds Transfer (NEFT)/ Real Time Gross Settlement (RTGS)
v. Over the Counter (OTC)

2. Scope of work:

Providing, Supply and Installation of Various Necessary Facilities such as Shamiyana, Stage, Sound System, Lightings, Cardamom Garland, Shalu, Dried Fruits, Snacks, Fireworks-Pyrotechnics, Bands, Awards, Cultural Representation Parade, Themed Stalls and Other Facilities for "Freedom Habba-2026" and various Programs to be celebrated on 15.08.2026 at Vidhana Soudha premises.

3. Eligibility Criteria:

3.1 The bidder shall possess a valid Registration Certificate issued by the Public Works Department (PWD), Government of Karnataka, or a valid MSME Registration Certificate.

3.2 The bidder shall possess valid ESI Registration, EPF Registration, and Labour Registration Certificate, as applicable.

3.3 The bidder shall possess a valid GST Registration Certificate and PAN Card.

3.4 The bidder shall have successfully executed at least one single work

valued at ₹250.00 Lakhs during the last five years for any Government Department or Government-aided Institution, involving the supply of services such as shamiana (event tent), stage, sound system, lighting, cardamom garlands, shawls, dry fruits, mementos/awards, and other allied event facilities. A Work Completion Certificate (Work Done Certificate) shall be submitted as proof.

3.5 The bidder shall possess Work Orders and/or Experience Certificates issued by an Executive Engineer or an officer of higher rank, evidencing successful execution of similar services for State-level events such as Legislative Assembly/Council Sessions, Kannada Literary Conference (Sahitya Sammelana), Hampi Utsava, Agricultural Fair (Krishi Mela), or other major Government events, involving the provision of shamiana, stage, sound system, lighting, cardamom garlands, shawls, dry fruits, mementos/awards, and other related facilities.

3.6 The bidder shall possess a valid Trade License or Company/Firm Registration Certificate.

3.7 The bidder shall have a minimum of five years of experience in providing services such as shamiana, stage, sound system, lighting, cardamom garlands, shawls, dry fruits, mementos/awards, and other allied event facilities. The bidder shall have achieved a minimum annual turnover of ₹10.00 Crore in each of the financial years from 2021–22 to 2025–26, supported by documentary evidence.

3.8 The bidder shall remit an Earnest Money Deposit (EMD) of ₹7,50,000/- through the Karnataka Public Procurement Portal (KPPP) (https://kppp.karnataka.gov.in).

3.9 The bidder shall submit Income Tax Returns (ITRs) for the preceding five financial years.

3.10 The bidder shall submit Audited Financial Statements/Audit Reports certified by a Chartered Accountant for the preceding five financial years.

3.11 Joint Ventures (JVs)/Consortium bids shall not be considered for this tender.

3.12 The quoted tender amount shall be inclusive of all applicable taxes and duties.

3.13 As this is a high-priority and sensitive Government event, expected to be attended by the Hon'ble Chief Minister of Karnataka, all bidders shall, prior to participating in the tender, submit documentary evidence of similar events organized by them to the office of the Executive Engineer-3, PIU, GBA for verification and obtain a Letter of Approval/Consent from the office. Bids submitted without obtaining such approval shall not be considered.

4. Documents to be uploaded:

The Following documents in support of the eligibility are required to be uploaded:

4.1 valid Registration Certificate issued by the Public Works Department (PWD), Government of Karnataka, or a valid MSME Registration Certificate.

4.2 valid ESI Registration, EPF Registration, and Labour Registration Certificate, as applicable.

4.3 valid GST Registration Certificate and PAN Card.

4.4 The bidder shall have successfully executed at least one single work valued at ₹250.00 Lakhs during the last five years for any Government Department or Government-aided Institution, involving the supply of services such as shamiana (event tent), stage, sound system, lighting, cardamom garlands, shawls, dry fruits, mementos/awards, and other allied event facilities. A Work Completion Certificate (Work Done Certificate).

4.5 Work Orders and/or Experience Certificates issued by an Executive Engineer or an officer of higher rank, evidencing successful execution of similar services for State-level events such as Legislative Assembly/Council Sessions, Kannada Literary Conference (Sahitya Sammelana), Hampi Utsava, Agricultural Fair (Krishi Mela), or other major Government events, involving the provision of shamiana, stage, sound system, lighting, cardamom garlands, shawls, dry fruits, mementos/awards, and other related facilities.

4.6 Valid Trade License or Company/Firm Registration Certificate.

4.7 The bidder shall have achieved a minimum annual turnover of ₹10.00 Crore in any two years of the financial years from 2021–22 to 2025–26 supported by CA Certificates.

4.8 Copy of Earnest Money Deposit (EMD) of ₹7,50,000/- paid through the Karnataka Public Procurement Portal (KPPP) (https://kppp.karnataka.gov.in).

4.9 Income Tax Returns (ITRs) for the preceding five financial years. Financial Statements/Audit Reports certified by a Chartered Accountant for the preceding five financial years.

4.10 Undertaking to comply with the Terms & Conditions (including corrigendum) mentioned in this Tender Document.

4.11 Submission of all above documents for all the years concerned is **“mandatory”**. **Failure to upload any of them will result in disqualification** at technical bid stage itself.

4.12 Undertaking for subsequent submission of any of the above documents will not be entertained under any circumstances. However, the Department reserves the right to seek fresh set of documents or Originals or seek clarifications on the already

uploaded documents.

4.13 Each page of the tender document must be signed along with seal of the Agency clearly indicating the Name and Designation of the Authorized Signatory of the Organization.

4.14 Agency will have to produce the original documents at the time of Technical Bid Scrutiny and/or at any subsequent stage (including after award of work) to the Department and will have to attest any or all pages of tender document or any document subsequently uploaded by it.

5. Corrigendum in respect of Tender Document:

5.1 At any time prior to the last date for receipt of Bids, the Department may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective Agency, modify the Tender Document through a Corrigendum which will be uploaded.

6. Manner of quoting the financial bid:

6.1 Quote service charges in Rupees only (Both in figures and words).

7. Bid Opening Process

7.1 Technical Evaluation: Online bids will be opened by a Executive Engineer-3 PIU GBA on the date and time mentioned in this document (read with corrigendum, if any) in presence of the Bidder or a duly authorized representative, if present. No separate intimation will be given in this regard.

7.1.1 Bids will be evaluated with regard to eligibility criteria as per tender document.

7.1.2 The Bidder or authorized representatives will have to produce the original documents at the time of technical scrutiny. The Department reserves the right to reject the bid at technical stage, in case; the original documents are not produced for physical verification.

7.1.3 Only one authorized representative of each Bidder will be permitted to be present at the time of opening of the bids.

7.1.4 The Department reserves the right to ask for records for clarification, if required, by the Chief Engineer, PIU, GBA.

7.1.5 Bids, not satisfying the Technical eligibility criteria will be rejected.

7.2 Financial Evaluation:

7.2.1 Financial bids of only those Bidders whose bids meet the Financial Bid eligibility criteria and are found technically qualified only will be opened by the Executive Engineer-3, PIU, GBA on the date and time as per the Tender document in the presence of the Bidders or their representatives, if present, for further financial evaluation.

7.2.2 Only one authorized representative of each of the Bidder will be permitted to be present at the time of opening of the bids.

8. Confidentiality

8.1 The Agency shall not use confidential information, the name or the logo of the Department except for the purposes of providing the service as specified under this contract.

9. Penalty for Delay:

9.1 Any delay in supply within stipulated time period as mentioned in Work Order will invite penalty at the rate of delay subject to a maximum limit of 20%.

9.2 If the delay is such that the delay penalty has reached a value of 20% of the order value, the Department will impose the penalty as above and will have an option to cancel the work order and award the work to any other agency without any compensation to the agency at the risk and at the cost of such defaulting agency.

9.3 EMD/Security Deposit and the Performance Bank Guarantee submitted by the defaulting agency would be forfeited and empanelment cancelled.

9.4 Defaulting agency would be debarred from participating in any of the departments in State / Central Tender for a period of three years.

10. Terms of Payment and Payment Schedule:

10.1 A bill, along with certificate of completion from the department shall be submitted by the Agency.

10.2 Payments shall be subject to deductions of any amount for which the Agency is liable under the empanelment or tender conditions. Further, all payments shall be made subject to deduction of Tax Deduction at Source (TDS) as per the Income Tax Act/ Rules and/or any other Rules or order of the Government.

10.3 Payments will be made to the Agency after submission of bills and necessary certifications which fulfils the tender.

10.4 If the Payment is delayed by the Department for any other reason, no interest shall be payable by the Department for late payments.

11. Security Deposit and Performance Guarantee

11.1 The successful tenderer shall deposit an amount **equivalent to 5%** of the Tender Value/amount as **Security Deposit** or provide a Demand Draft or an irrevocable **Bank Guarantee** of any Nationalized / State Bank for the duration of the agreement at the time of entering into agreement, which is valid for a period of one month, in favor of the Executive Engineer-3, PIU, GBA, payable at Bengaluru.

12. Termination of Contract

12.1 Termination for Insolvency: The department may at any time terminate the work order / contract by giving a written notice to the selected Agency, without any compensation to the Agency, if the Agency becomes bankrupt or insolvent.

12.2 Termination for default by Agency: Default is said to have occurred, if:

i. the Agency fails to execute the Supply Order within the specified time limit or any extension thereof granted by the department;

ii. the Agency fails to perform any obligations(s) and activities under the contract and/or any statutory requirement under the rules and regulations of the Government;

iii. The department reserves the right to terminate the contract / Supply Order in whole or in part, as deemed appropriate. Security Deposit of such defaulting agency(s) shall be forfeited and the defaulting Agency shall be debarred from participating the department Tenders for a period of three years; and

iv. In addition to above, the department may at its discretion may get the services from any other agency at the cost and risk of such defaulting Agency. The defaulting Agency shall be liable to compensate the department for any extra expenditure involved to complete the scope of work in totality. In addition, the defaulting Agency shall also be liable to pay 20% of the Supply Order as cancellation charges for each unexecuted order.

13. Responsibilities of the Agency

13.1 The supplies and / or services in quantity and quality as specified by the department will be executed/ performed by the Agency within the time limit as specified in the work order;

13.2 The Agency is liable for damages on account of any violation by the

manpower/machinery deployed under any laws of the Country.

13.3 The Agency shall provide Photo ID Card and Uniform respectively as per Rules 15 and 16 of Karnataka Private Security Agencies Rules, 2008.

14. Liability of the Agency

14.1 Agency shall be liable for all acts of omission and commission by it or its agents or employees under this tender and the Department stands insulated against aggrieved third-party complaints against any civil or criminal actions of the agency or its agents or its employees.

15. Applicable Laws

15.1 The Agency shall be governed by the laws and procedures established by Government within the framework of applicable legislation and enactment made from time to time concerning such commercial dealings/processing.

15.2 All disputes in this connection shall be settled in Bengaluru jurisdiction only.

16. GENERAL TERMS & CONDITIONS

1. Only those Firms or Companies who fulfill the prescribed eligibility criteria and possess all the documents required for technical scrutiny shall apply. The bidders shall submit the bids only after understanding the Tender Document completely.
2. Joint Bids will not be accepted.
3. Tender document is non-transferable. Conditional tenders are liable for rejection.
4. Financial Bid shall be quoted carefully. The Department will not be responsible for any misinterpretation or wrong assumption by the Agency.
5. Bid validity: The Bid shall be initially **valid for 30** days from the opening of financial bid. If necessary, the department will seek extension in the bid validity period beyond 60 days.
6. The Department reserves the right to cancel the tender process at any stage without assigning any reason as well to reject any or all the bids without assigning any reason. The Department also reserves the right to reject any bid on the basis of unsatisfactory past performance of a bidder or warranted termination of past contract or fake bids.
7. The Department also reserves the right to modify/relax any of the terms and conditions of the tender by declaring / publishing such amendments in a manner that all prospective Agencies / parties to be kept informed about it.
8. Suppression/misrepresentation of any information or furnishing false/ incorrect information by any bidder shall render summary rejection of the

bid. The contract, if made, will be liable to be terminated. EMD/ Security Deposit/ Performance Bank Guarantee will also be liable for forfeiture along with criminal prosecution, if warranted. The decision of the Department in this regard shall be final and binding.

9. Release of Security Deposit/ Performance Bank Guarantee: These will be released after 30 days of the expiry of the Contract period, by adjusting any dues to the Department.
10. In case of any dispute or proceedings in any court/ authority on a matter arising out of the Agreement, the Security Deposit/ Performance Bank Guarantee shall not be released until the proceedings are disposed of even in the event of the Agreement coming to an end.
11. No escalation in rates by the successful tenderer on any account in any form shall be entertained by the department during the Agreement period.
12. The Agency shall have obtained necessary Statutory permissions under relevant laws wherever applicable.
13. Any attempt by Agency to bring pressure towards the Department's decision making process will make the Agency liable for disqualification for participation in the present tender. Such Agency may also be liable to be debarred from bidding for the Government tenders in future for a period of three years.
14. The decision of the Department arrived at during various stages of the evaluation of the bids is final and representation of any kind shall not be entertained.
15. **Agreement:** The successful tenderer shall enter into an Agreement on a non-judicial stamp paper of Rs. 25,000.00/- for due performance of contract, within time limits as intimated by the Department (or extensions granted). The Agency shall provide the required goods/ services within the period as specified in the Agreement.
16. The scope of Agreement shall be liable for alteration by way of deletions or additions at the discretion of the Department.
17. The Agency or its personnel shall not divulge or disclose to any person, any details of this office, operational process, technical know-how, security arrangement, administrative/organizational matters, etc.
18. The Department shall not be responsible for any damage/ injury sustained by the employee deployed by the Agency, during the course of providing services.
19. The successful bidder shall furnish a bank guarantee of value specified in this document as Performance Guarantee from a Nationalized / State Bank for the contract period. In case the successful bidder fails to sign the contract or submit the Performance Guarantee within specified period,

the EMD shall be forfeited.

20. In case, the Agency fails to provide services or found to be unsatisfactory, the contract can be terminated by the Department. The performance guarantee/security in that case shall be forfeited.
21. To prevent disputes and litigations, it shall be accepted as an inseparable part of the Agreement that in matters with regard to interpretation of Agreement, mode of procedure and carrying out the work the decision of the Chief Commissioner, GBA shall be final and binding on the Agency.
22. The Agency shall ensure that one of its representative supervisors is available at pre-notified address with contact number.
23. Breach of contract/ work order: In case the Agency is found in breach of any condition(s) of tender or supply order, at any stage during the supply/service period, or adopts any unfair practice for the purpose of this tender either before or after issue of work order, it's EMD/Security Deposit/ Performance Bank Guarantee is liable for forfeiture. Further, the Department reserves the right to initiate legal action as per law and also to debar the defaulting Agency concerned from participating in the Government Tenders for at least three years.
24. The General Rules as prescribed by the State Government or the Department of Personnel and Administrative Reforms from time to time shall be applicable.
25. The bidder shall submit a self-declaration/undertaking stating that the firm has not been blacklisted by any Government Department, Government Agency, Public Sector Undertaking (PSU), Autonomous Body, or any other public institution.
26. In the event of any discrepancy between the figures and words quoted in the bid submitted through the Karnataka Public Procurement Portal (KPPP), the lower of the two quoted amounts shall prevail and be considered for evaluation.
27. **The successful bidder shall provide the required services for the Independence Day Celebration 2026–27, scheduled on Saturday, 15.08.2026, from 08:00 AM to 09:00 PM, in accordance with the terms and conditions of the tender**. The final rates shall be negotiated and finalized with the successful bidder.
28. The e-Tender is invited under the **Two-Cover System** (Technical Bid and Financial Bid).
29. The **Financial Bid** of bidders who fail to qualify in the **Technical Evaluation** shall be rejected.
30. The **L1 (Lowest) Bidder** shall be determined based on the **lowest overall quoted rates**.

31. The contractor shall be solely responsible for the comprehensive supply and execution of all services, including **shamiana (event tent), stage, sound system, lighting, cardamom garlands, shawls, dry fruits, refreshments, fireworks/pyrotechnics, orchestra/band, mementos/awards, cultural parade representing various States, theme-based exhibition stalls, and all other allied event facilities**, including all materials, labour, machinery, equipment, and associated services. The contractor shall possess adequate expertise in executing such works and shall ensure that all materials, labour, machinery, and other services are fully mobilized and ready on or before **14.08.2026**.
32. All materials, labour, machinery, and services provided for the above works shall be of **good quality**, free from technical defects, and fit for the intended purpose. In the event of any deficiency, interruption, or failure in service attributable to the contractor, the **Earnest Money Deposit (EMD)** shall be liable to forfeiture.
33. The contractor shall take all necessary preventive measures to avoid **fire accidents, electrical hazards, and other safety incidents** during installation, throughout the event, and until complete dismantling and demobilization. In the event of any accident resulting in **loss of life, injury, or damage to property**, the contractor shall bear full responsibility and liability.
34. The shamiana/pandal installed by the contractor shall be **weather-resistant (waterproof), structurally sound, safe, and neatly erected**.
35. The contractor shall obtain all necessary **permissions and licences** from the **Electricity Supply Authority** and other competent authorities. In case of power failure, the contractor shall immediately provide **backup generator facilities**. The contractor shall maintain continuous coordination with the **Fire & Emergency Services Department** throughout the event.
36. The contractor shall completely dismantle and clear the event site within **48 hours** after completion of the programme.
37. The **Estimate Schedule (BOQ)** has been uploaded. The bidder shall quote rates **Exclusive of all applicable taxes**. If required, the successful bidder shall submit a detailed rate analysis in accordance with the estimate schedule after completion of the tender process.
38. The contractor shall execute and provide all services strictly in accordance with the instructions issued by the **undersigned/competent authority**.
39. The quantities specified in the tender are **approximate** and may increase or decrease by **up to 10%**, and such variations shall be

communicated by the department.

40. The contractor shall take adequate precautions to prevent fire accidents during the event. The contractor shall be solely responsible for any accident or damage arising therefrom.
41. The contractor shall maintain cleanliness and proper upkeep of the **shamiana, floor mats, VVIP chairs, plastic chairs, and all other event materials and equipment**.
42. All **mementos, certificates of appreciation, silk shawls, cardamom garlands, and dry fruits** shall be procured only after obtaining approval from the **Competent Authority**.
43. The contractor and his representatives shall maintain **courteous and professional conduct** while dealing with Government officials and staff.
44. The contractor shall make adequate **security arrangements** for the event.
45. A tender application submitted in the name of one firm or proprietor shall **not** be used for submission of a bid in the name of another firm or proprietor.
46. The successful bidder shall furnish a **Security Deposit equivalent to 5% of the accepted tender value** in favour of the **Executive Engineer-3, PIU, GBA**.
47. The contractor shall deploy only **medically fit personnel free from contagious/infectious diseases**.
48. The successful bidder shall execute the work personally and **shall not assign, transfer, or sublet the contract** to any third party. In the event of subcontracting, the contract shall be terminated without notice, and criminal proceedings may be initiated against the firm.
49. Any tender uploaded **after the prescribed date and time** shall be rejected.
50. The Tender Inviting/Accepting Authority reserves the right to **modify the tender conditions or cancel all tenders without assigning any reason**.
51. The undersigned reserves the right to **reject, accept, postpone, or modify any or all tenders** without assigning any reason if the prescribed conditions are not fulfilled.
52. Any disputes or legal proceedings arising out of this tender shall be subject to the **jurisdiction of the Courts at Bengaluru District only**.
53. For further information, bidders may contact the **Assistant Executive Engineer, Planning Division, GBA** at **Mobile No. 7829808099**.

54. The bidder shall remit an **Earnest Money Deposit (EMD) of ₹7,50,000/-** through the **Karnataka Public Procurement Portal (KPPP)**.
55. The **EMD** shall be refunded after expiry of the **bid validity period**, subject to the tender conditions.
56. In the event of violation of the tender conditions, the **Security Deposit** shall be forfeited.
57. **No advance payment** shall be made under this contract.
58. Payment shall be released only **after satisfactory completion of the services** and as per the agreed contract value.
59. The authority to **accept or reject the tender** rests solely with the **Hon'ble Chief Commissioner, GBA/Competent Authority**.
60. After successful completion of the programme, payment shall be made after deducting **Income Tax (TDS), GST TDS, and other statutory deductions**, as applicable under law.
61. The **Competent Authority (Executive Engineer, PIU, GBA)** reserves the absolute right to **withdraw, postpone, amend, or modify the tender process, tender notification, or contract conditions** at any stage without prior notice or assigning any reason. In the event of withdrawal of the tender, the undersigned shall not be responsible for the refund of **Tender Processing Fees** or **EMD**, which shall be governed by the applicable provisions of the KPPP portal.
62. The successful bidder shall execute the agreement within **24 hours (one day)** of receipt of the Letter of Acceptance by appearing before the **Executive Engineer, PIU, GBA, Bengaluru**, with **stamp paper worth ₹25,000/-**.
63. The **Executive Engineer, PIU, GBA, Bengaluru** reserves the full right to **accept, reject, or re-invite the tender** without assigning any reason.
64. To prevent any untoward incidents during the programme, the contractor shall deploy adequate **security personnel** and implement all necessary **safety and preventive measures**. The contractor shall be solely responsible for any untoward incident, accident, injury, or loss of life occurring during the event.
65. In case of any dispute relating to the tender, the **Hon'ble Chief Commissioner, BBMP, Bengaluru**, shall be the **Appellate Authority**, and his decision shall be final and binding. Any legal proceedings shall be subject exclusively to the **jurisdiction of the Civil Courts at Bengaluru City**.
66. The **Executive Engineer-3, PIU, GBA, Bengaluru**, reserves the right to **add, delete, amend, or modify any of the above terms and conditions** from time to time, as may be considered necessary.

Appendix-1 – Covering Letter

(To be submitted in firm/ company letter head)

To,

To,

The Executive Engineer -3
Project Implementation Unit
Greater Bengaluru Authority

Against contract vide Advance Acceptance of the Tender No. <Tender Number dated DD/MM/YYYY>pertaining to Selection of Agency Providing, Supply and Installation of Various Necessary Facilities for celebrating "Freedom Habba-2026" and various Programs on 15.08.2026 at Vidhana Soudha premises. (hereinafter called the said 'contract') entered into between the The Executive Engineer -3, Project Implementation Unit (hereinafter called the Purchaser) and M/s.__, a Company incorporated under the Companies Act, 1956 and having its Registered Office at (hereinafter called the Bidder). This is to certify that at the request of the Bidder we (name of the Bank / Branch .....) a body corporate constituted under the Banking Companies [Acquisition and Transfer of Undertakings] Act, 1970 and having its, Registered Office at..... and a branch office at ..... are holding in trust in favour of the Purchaser, an amount of Rs..... (Rupees only).

To indemnify and keep indemnified the Purchaser against any loss or damage that may be caused to or suffered by the Purchaser by reason of any breach by the Bidder of any of the Terms and Conditions of the said Contract and/or in the performance thereof. We agree that the decision of the Purchaser, whether by any breach of any of the Terms and Conditions of the said Contract and/or in the performance thereof has been committed by the Bidder and the amount of loss or damage that has been caused or suffered by the Purchaser shall be final and binding on us and the amount of the said loss or damage shall be paid by us forthwith on demand and without demur to the Purchaser.

1. We --- (Name of the Bank/Branch).....further agree that the guarantee herein contained
shall remain in full force and effect during the period that would be taken for satisfactory performance and fulfillment in all respects of the said contract by

the Bidder i.e.till_____
hereinafter called the said date and that if any claim accrues or arises against us _____(Name of the Bank /Branch) by virtue of this guarantee before the said date, the same shall be enforceable against us .....(Name of the Bank/Branch) notwithstanding the fact that the same is enforced **within One months** after the said date, provided that notice of any such claim has been given to us ..... (Name of Bank/Branch) by the Purchaser before the said date. Payment under this letter of guarantee shall be made promptly upon our receipt of notice to that effect from the Purchaser.

2. It is fully understood that this guarantee is effective from the date of the said contract and that we..... (Name of the Bank Branch) undertake not to revoke this guarantee during its currency without consent in writing of the Purchaser.

3. We undertake to pay to the Purchaser any money so demanded notwithstanding any dispute or disputes raised by the Bidder in any suit or proceeding pending before any court or Tribunal relating thereto our liability under this present bond being absolute and unequivocal.

4. The payment so made by us under this Bond shall be a valid discharge of our liability for payment there under and the Bidder shall have no claim against us for making such payment.

5. We ..... (Name of the Bank / Branch) further agree that the Purchaser shall have the fullest liberty, without affecting in any manner our obligations hereunder to vary any of the terms and conditions of the said contract or to extend time of performance by the Bidder from time to time or to postpone for any time or from time to time any of the powers exercisable by the Purchaser against the said Bidder and to forebear or enforce any of the terms and conditions relating to the said contract and we, ...(Name of the Bank/Branch) shall not be released from our liability under this guarantee by reason of any such variation or extension being granted to the said Bidder or for any forbearance by the Purchaser to the said Bidder or for any forbearance and or omission on the part of the Purchaser or any other matter or thing whatsoever, which under the law relating to sureties, would, but for this provision have the effect of so releasing us from our liability under this guarantee.

6. This guarantee will not be discharged due to the change in the constitution of the Bank or the Bidder.

Notwithstanding anything contained herein:

i) Our liability under this Bank Guarantee shall not exceed of Rs..... (Rupees in words -----only)

ii) The Bank Guarantee shall be valid up to.....; and;

iii) We.....(Name of the Bank/Branch) are liable to pay the guaranteed amount or any part thereof under this Bank Guarantee only and only if you serve upon us a written claim or demand on or before .....

Bill of Quantities (BOQ)

Sl No	Detailed Description of the Event & Scope of Work	Unit	Qty	Rate	Amount
1	Main Stage - Audio visuals/ Sound reinforcements/ Lighting System / Truss Structure & Rigging System				
1.1	Audio System & Equipment- For main Stage				
	Providing and installing a complete professional sound reinforcement system for the event, including installation on the previous day, operation during the event day, and dismantling after completion, comprising 16 Nos. D&B KSL Series Tops as the main PA system, along with 8 Nos. D&B KSL Series Tops (Delay 1) and 8 Nos. D&B KSL Series Tops (Delay 2) for delay coverage. The subwoofer system shall consist of 16 Nos. D&B SL Series Subs, supplemented with 24 Nos. D&B V Series loudspeakers, 12 Nos. D&B B22 subwoofers, 16 Nos. AL90 center fill speakers, 12 Nos. D&B M4 stage monitors, 12 Nos. D&B T Series side fill speakers, 16 Nos. D&B V Series outfill tops, and 6 Nos. D&B B22 outfill subwoofers. An additional 4 Nos. QSC K12 speakers on stands shall be provided as delay speakers for the children's area. The amplification system shall include 4 Nos. D&B D90 amplifiers and 16 Nos. D&B D40 amplifiers, complete with all required cabling and accessories. Audio control shall be provided through 1 No. DiGiCo Quantum 338 digital sound mixer, 1 No. Waves server, and 1 No. laptop for ambience music playback. The microphone package shall include 8 Nos. QLXD cordless microphones, 4 Nos. podium microphones, 4 Nos. lapel/headset microphone sets, and 8 Nos. DI boxes with EP cables. Communication equipment shall comprise 16 Nos. Clear-Com wireless communication units and 20 Nos. walkie-talkies. Professional operation shall be supported by 2 sound engineers for the entire 2-day event. Additionally, provide 4 Nos. Chinese canopies (10 ft × 10 ft) for 3 days and 1 complete **scaffolding arrangement for the flying main sound system for entire event** ensuring safe installation and operation. All equipment shall be supplied, installed, tested, operated, and dismantled	No’s	1		

	upon completion of the event, including all necessary accessories, power distribution, signal cabling, rigging hardware, and manpower required for successful execution and as per directions of the Engineer-in-Charge.				
1.2	Band Tech Rider				
	Providing a complete professional monitor audio system, backline equipment, and stage accessories for entire event on the preceding day, operation on the event day, and dismantling after the event, including 20 Nos. Spectra In-Ear Monitor (IEM) systems, 12 Nos. Shure Axient wireless microphones, and 6 Nos. Shure Axient belt packs. The monitor control system shall comprise 1 No. DiGiCo Quantum 5 digital sound mixer for Front of House (FOH), 1 No. DiGiCo Quantum 338 digital sound mixer for monitor mixing, 3 Nos. SD Racks, 3 Nos. fibre optic cable systems, 2 Nos. shout monitors, 1 No. Waves Extreme Server with 21-inch display, 6 Nos. talkback microphones, and 6 Nos. Clear-Com wireless communication units for artists. Provide a complete professional backline setup consisting of 1 Pearl drum kit, 1 complete drum microphone package, 1 drum shield, and 1 drummer subwoofer monitor. The drum microphone package shall include 2 Nos. Shure Beta 52 kick-out microphones, 1 No. Shure Beta 91A kick-in microphone, and 2 Nos. Shure SM81 condenser microphones. Musical instrument amplification shall include 1 Fender Twin Reverb guitar amplifier, 1 Ampeg SVT Pro bass amplifier, 1 Roland KC-550 keyboard amplifier, and 1 Korg Kronos 2 (61-key) keyboard. The percussion package shall include 1 complete set of cymbals, 1 Duff, 1 pair of Bongos, 2 Timbales, 1 set of Congas, 1 Djembe, 1 Darbuka, 1 set of Chimes, and 1 set of Shakers. Provide a comprehensive microphone inventory comprising 2 clip-on microphones, 12 Shure SM57 microphones, 12 Shure SM58 microphones, 12 DPA clip-on microphones, 2 AKG C411 contact microphones, 2 Shure SM81 microphones, and 12 switch microphones. The system shall also include 38 DI boxes, together with all required microphone stands, power distribution boards, signal and power cables, connectors, and accessories for complete stage operation. The technical manpower shall include 1 Assistant Sound Engineer and 6 Stage Crew personnel for the entire event. All equipment shall be supplied, installed, tested, operated, maintained throughout the event, and dismantled after completion, including all accessories, interconnections, rigging hardware, and manpower required for flawless execution and as per directions of the Engineer-in-Charge.	No’s	1		
1.3	Stage & Front of House Lighting System Specification				
	Providing, installing, testing, operating, maintaining, and dismantling a complete professional stage and Front of House (FOH) lighting system on the preceding day, operation on the event day, and dismantling after the event. The Front of House lighting system shall include 24 Nos. BSW Moving Head Sharpy fixtures and 24 Nos. Moving Head Wash fixtures to provide dynamic audience and stage illumination. The stage lighting system shall comprise 50 Nos. Lightsky LED Battens, 50 Nos. Beam Moving Head Sharpy fixtures, 36 Nos. Moving Head Wash	No’s	1		

	fixtures, 24 Nos. Kadence Strobe lights, 24 Nos. Kadence Blinder lights, and 4 Nos. FZ-1000 haze machines to enhance stage effects and lighting ambience. Lighting control shall be provided through 1 No. GrandMA lighting controller, complete with all necessary networking equipment, DMX distribution, power supplies, and programming facilities. In addition, provide 1 complete set comprising 10 cable managers and 10 Velcro cable mats for safe cable routing and stage management. The entire lighting system shall include all required rigging hardware, trusses, clamps, safety wires, power and DMX cabling, connectors, distribution boards, programming, testing, operation, technical manpower, maintenance during the event, and dismantling after completion, ensuring safe and uninterrupted operation throughout the event and as per directions of the Engineer-in-Charge.				
1.4	Truss Structure & Rigging System				
	Providing, fabricating, installing, certify, maintaining, and dismantling a complete truss and rigging system on the preceding day, operation on the event day, and dismantling after the event. The scope shall include 2 Nos. Goal Post Truss structures measuring 30 ft × 20 ft, with a total truss quantity of 140 running feet, suitable for supporting lighting, audio, LED screens, and other production equipment. In addition, provide 1 No. Goal Post Truss structure measuring 100 ft × 30 ft, comprising 160 running feet of truss, complete with all structural members, connection hardware, and rigging accessories. The installation shall also include 6 Nos. truss pillars with base plates, providing a total height of 6 metres each, complete with base plates, outriggers, braces, sleeves, couplers, spigots, pins, safety fittings, ballast (where required), and all necessary rigging accessories to ensure structural stability and safe load-bearing capacity. The complete truss system shall be supplied with all required lifting equipment, chain blocks, motors (where applicable), steel wire ropes, safety slings, shackles, clamps, ladders, certified rigging hardware, labour, supervision, erection, alignment, testing, maintenance during the event, and dismantling after completion, in accordance with applicable safety standards for the entire event and as per directions of the Engineer-in-Charge.	No’s	1		
1.5	Audio Visual (AV) System – LED Display & Video Processing				
	Providing, installing, testing, operating, maintaining, and dismantling a complete professional Audio Visual (AV) system on the preceding day, operation on the event day, and dismantling after the event comprising high-resolution outdoor LED display systems, video processing equipment, signal distribution, and supporting structures for the Main Stage, Left & Right side screens, and Outdoor Gate displays. For the Main Stage, provide a P3.9 Outdoor LED Wall measuring 59.04 ft × 16.40 ft, with a total display area of 968.256 sq.ft., complete with 3 Nos. 4K Prime LED processors, 2 Nos. fibre optic cable systems, 1 No. P20 seamless video switcher, 4 Nos. 55-inch preview monitors, 6 Nos. TX/RX signal transmission units, and 4 Nos. laptops for	No’s	1		

	content playback and control. The LED wall shall be supported by 960 sq.ft. of scaffolding structure measuring approximately 60 ft × 16 ft, together with 12 Nos. water ballast units to ensure structural stability and safety. For the Left and Right Side Screens, provide 6 Nos. P3.9 Outdoor LED Walls, each measuring 16.04 ft × 9.84 ft, with a combined display area of 947.0016 sq.ft. The system shall include 6 Nos. VX4S LED processors, 6 Nos. fibre optic cable systems, 2 Nos. laptops, and 448 sq.ft. of scaffolding structures comprising 2 Nos. structures measuring 16 ft × 14 ft, complete with 8 Nos. water ballast units for secure installation. For the Outdoor Gate (Inside), provide 2 Nos. P3.9 Outdoor LED Walls, each measuring 19.68 ft × 11.48 ft, with a combined display area of 451.8528 sq.ft. The installation shall include 2 Nos. 4K Prime processors, 1 No. fibre optic cable system, 2 Nos. laptops, and 640 sq.ft. of scaffolding structures comprising 2 Nos. structures measuring 20 ft × 16 ft, together with 2 Nos. sets of 6 water ballast units for structural support and stability. The complete AV system shall include all necessary LED cabinets, processors, power supplies, sender and receiver cards, video distribution equipment, fibre optic and signal cabling, power distribution boards, rigging hardware, scaffolding, ballast, programming, content testing, commissioning, operation, technical manpower, maintenance during the event, and dismantling after completion. All systems shall be installed in accordance with applicable safety standards and shall ensure uninterrupted, high-quality video display throughout the event and as per directions of the Engineer-in-Charge.				
2	Cultural Programme Stage (Performance Stage at 2 locations)				
	Providing, installing, testing, operating, maintaining, and dismantling a complete professional sound reinforcement system for the Cultural Programme Stage on the preceding day, operation on the event day, and dismantling after the event. The system shall include 8 Nos. sound top loudspeakers, 4 Nos. subwoofers, and 2 Nos. amplifier racks to provide adequate audio coverage for the performance area and audience. Stage monitoring shall comprise 2 Nos. D&B M4 stage monitor speakers, controlled through 1 No. digital sound mixer. The microphone package shall include 4 Nos. QLXD cordless wireless microphones and 4 Nos. wired microphones with stands for performers and presenters. In addition, provide 1 No. laptop for ambience music playback, 8 Nos. DI boxes with EP cables for connecting musical instruments and playback devices, and 2 Nos. Clear-Com wireless communication units for coordination among the technical crew. Technical operation shall be carried out by 1 professional sound engineer for the entire event. The scope shall also include 2 Nos. Chinese canopies measuring 10 ft × 10 ft to provide weather protection for the audio control equipment and operators. The complete audio system shall include all necessary loudspeakers, amplifiers, processing equipment, signal and power cabling, microphone stands, connectors, power distribution boards, rigging and mounting accessories, testing,	No’s	1		

	commissioning, operation, maintenance during the event, technical manpower, and dismantling after completion, ensuring uninterrupted, high-quality sound reinforcement maintained throughout the event day, with installation and readiness completed on the previous day and as per directions of the Engineer-in-Charge.				
3	Outside Delay Sound Reinforcement System				
	Providing, installing, testing, operating, maintaining, and dismantling a complete Outside Delay Sound Reinforcement System to ensure uniform audio coverage across external audience areas for the event. The system shall be deployed for the event, including installation on the previous day, operation during the event day, and dismantling after completion, unless otherwise specified, and shall include 16 Nos. D&B V Series flying top loudspeakers and 8 Nos. D&B B22 flying subwoofers, complete with all necessary flying hardware, rigging accessories, and suspension equipment. Provide 9 complete Delay Sound Stack systems (Stack 1+3 configuration) strategically positioned to achieve consistent sound coverage throughout the designated delay zones. The loudspeaker system shall be powered by 6 Nos. D&B D40 amplifier units, complete with digital signal processing, power distribution, and all required signal and power cabling. The flying loudspeaker system shall be supported by 4 Nos. scaffolding structures, each measuring 8 ft × 24 ft, with a total scaffolding area of 768 sq.ft., complete with platforms, rigging points, safety rails, access ladders, and all necessary structural components. The installation shall also include 4 sets of water ballast units for 1 day to provide adequate stability and ensure safe operation of the scaffolding structures. Additionally, provide a Horn Speaker Delay System comprising 120 horn speakers for sound reinforcement along KR Circle Road and GPO Road, to be installed, operated, and dismantled for 1.5 days, ensuring clear speech intelligibility and audio coverage throughout the designated outdoor areas. The complete outside delay sound system shall include all loudspeakers, amplifiers, digital signal processing equipment, rigging hardware, scaffolding, water ballast, power and signal distribution, fibre and copper cabling where required, testing, commissioning, operation, technical supervision, maintenance during the event, and dismantling after completion. The installation shall comply with applicable safety standards and shall ensure uninterrupted, high-quality audio coverage throughout the event duration and as per directions of the Engineer-in-Charge.	No’s	1		
4	Generator & Electrical Power Distribution System				
	Providing, installing, commissioning, operating, maintaining, and dismantling complete soundproof mobile diesel generator (DG) sets along with all associated electrical infrastructure for the event at Vidhana Soudha from 13th to 15th August 2026. The generators shall be supplied with adequate fuel, certified operators, synchronization equipment (where required), power	No’s	1		

	distribution panels, earthing systems, protection devices, cabling, transportation, and technical manpower to ensure uninterrupted power supply throughout the event. For 13th August 2026, provide 1 No. 180 KVA soundproof DG set, 1 No. 125 KVA soundproof DG set, and 1 No. 62 KVA soundproof DG set, each operating for 5 hours. For 14th and 15th August 2026, provide the following soundproof DG sets, each with an initial operating period of 5 hours per day, together with an additional 14 hours of operation, resulting in a total operating duration of 24 hours per generator: 2 Nos. 125 KVA soundproof DG sets dedicated to the Main Stage Sound System. 1 No. 180 KVA soundproof DG set dedicated to the Main Stage Lighting System. 2 Nos. 62 KVA soundproof DG sets dedicated to the Inside and Outside LED Delay Display Systems. 1 No. 125 KVA soundproof DG set dedicated to the Cultural Stage Area 1 No. 125 KVA soundproof DG set dedicated to the Outside Delay Sound System. 2 Nos. 62 KVA soundproof DG sets dedicated to the LED Delay Sound System. 2 Nos. 125 KVA soundproof DG sets dedicated to the Sunday Soul Sante Area. The scope shall also include the complete temporary electrical infrastructure comprising cable protection mats, 215 electrical plug points covering all event zones including the Soul Sante area, complete power and control cabling, electrical distribution panels, connectors, earthing systems, transportation, installation, testing, commissioning, operation, supervision, and labour charges. Provide decorative and functional lighting for trees for 2 days, tent lighting for 2 days, and complete lighting arrangements for 80 Soul Sante stalls, including all fixtures, wiring, switching, and accessories. The contractor shall also be responsible for preparing and obtaining all required electrical documentation, statutory approvals, safety certifications, load calculations, inspection reports, and compliance documents required by the concerned authorities. The entire generator and electrical power distribution system shall be designed and executed in accordance with applicable electrical safety standards and regulations. The scope shall include supply of diesel fuel, preventive maintenance, standby support, emergency response, testing and commissioning, continuous operation during the event, and dismantling after completion, ensuring safe, reliable, and uninterrupted power supply for all event facilities throughout 13th to 15th August 2026. and as per directions of the Engineer-in-Charge.				
5	Tenting & Temporary Infrastructure				
5.1	@ K.R. Circle Road				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure at K.R. Circle Road on the preceding day, operation on the event day, and dismantling after the event, unless otherwise specified. The scope shall include 15 Nos. road barricades for traffic management and road closure, complete with installation and removal. Provide 3 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with	No's	1		

	two-side weatherproof coverings to provide shelter for the designated event area. The flooring of the tents shall be covered with 1,200 sq.ft. of carpet, laid neatly and securely for the duration of the event. The tenting area shall be enclosed with 12 Nos. barricades for access control and safety. Furnish the area with 15 tables, each complete with black frill covers, and 15 plastic chairs fitted with black chair covers to provide a neat and professional appearance. The scope shall further include 1 complete lighting arrangement for the tents and 1 temporary electrical power point for utility services and equipment operation. The contractor shall supply all materials, transportation, labour, installation, anchoring, ballast (where required), accessories, maintenance during the event, and dismantling after completion. All temporary structures shall be erected in accordance with applicable safety standards and shall be capable of withstanding normal weather conditions, ensuring safe, functional, and aesthetically pleasing facilities throughout the event and as per directions of the Engineer-in-Charge.				
5.2	For First Aid, Police, Medical, Water, Fire & Resting Areas				
	Providing, installing, maintaining, and dismantling complete temporary tenting and support infrastructure for the First Aid, Police, Medical, Drinking Water, Fire Services, and Resting Areas for a period on the preceding day, operation on the event day, and dismantling after the event, unless otherwise specified. The scope shall include 21 Nos. pagoda tents, each measuring 10 ft × 10 ft, complete with two-side weatherproof coverings to provide sheltered facilities for emergency services, public assistance, and staff resting areas. Provide 2,100 sq.ft. of carpet flooring for all pagoda tents, ensuring proper laying, finishing, and secure installation. Furnish the tents with 42 tables, each complete with black frill covers, and 63 plastic chairs fitted with black chair covers, providing adequate seating and operational workspaces. The scope shall also include 1 complete lighting arrangement for all tented areas and 1 temporary electrical power point for operating essential equipment and utilities. The contractor shall provide all materials, transportation, labour, anchoring systems, accessories, installation, maintenance during the event, and dismantling after completion. All temporary structures shall comply with applicable safety standards and shall be securely installed to ensure safe, comfortable, and uninterrupted operation of the First Aid, Police, Medical, Water, Fire Service, and Resting facilities throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.3	Soul Sante Area				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Soul Sante Area for a period of on the preceding day, operation on the event day, and dismantling after the event unless otherwise specified. The scope shall include 80 Nos. pagoda tents, each measuring 10 ft × 10 ft, complete with two-side weatherproof coverings, suitable for accommodating exhibition, food, retail, and promotional stalls. Provide 8,000 sq.ft. of carpet flooring for all pagoda tents, ensuring proper laying, alignment, and secure	No’s	1		

	installation. Each stall shall be furnished with the necessary furniture, including a total of 240 tables fitted with black frill covers and 160 plastic chairs with black chair covers, providing a clean, uniform, and professional appearance. The scope shall also include 80 complete tent lighting arrangements, ensuring adequate illumination for each stall during event operations, together with 1 temporary electrical power distribution system for the entire Soul Sante area, complete with the required distribution boards, wiring, protection devices, and accessories. Additionally, provide 50 plastic chairs for a dedicated Senior Citizen Resting Area, complete with chair covers, and 20 cocktail tables for common seating, networking, or refreshment zones within the Soul Sante premises. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event, and dismantling after completion. All temporary structures, electrical installations, furnishings, and associated infrastructure shall comply with applicable safety standards and shall ensure a safe, functional, and aesthetically pleasing environment throughout the event and as per directions of the Engineer-in-Charge.				
5.4	District Stalls				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the District Stalls for a period on the preceding day, operation on the event day unless otherwise specified. The scope shall include 20 Nos. pagoda tents, each measuring 10 ft × 10 ft, complete with two-side weatherproof coverings, suitable for accommodating district exhibition and promotional stalls. Provide 2,000 sq.ft. of carpet flooring for all pagoda tents, ensuring proper laying, alignment, and secure installation to provide a neat and comfortable flooring surface. Furnish the stalls with 60 tables, each complete with black frill covers, and 40 plastic chairs fitted with black chair covers, ensuring a uniform and professional appearance throughout the exhibition area. The scope shall also include 20 complete tent lighting arrangements, providing adequate illumination for each stall, together with 1 temporary electrical power distribution point, including all necessary distribution boards, wiring, protection devices, connectors, and accessories for safe and reliable power supply. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event, and dismantling after completion. All temporary structures, electrical installations, furnishings, and associated infrastructure shall comply with applicable safety standards and shall ensure a safe, functional, and aesthetically pleasing environment throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.5	Vidhana Soudha Tour (Near Vikas Soudha Entrance)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Vidhana Soudha Tour Area (Near Vikas Soudha Entrance) for a period on the preceding day, operation on the event day unless otherwise	No’s	1		

	specified. The scope shall include 3 Nos. pagoda tents, each measuring 10 ft × 10 ft, complete with two-side weatherproof coverings, to provide sheltered facilities for visitor management, registration, information, or support services. Provide 300 sq.ft. of carpet flooring for all pagoda tents, ensuring proper laying, alignment, and secure installation. Furnish the tents with 9 tables, each complete with black frill covers, and 6 plastic chairs fitted with black chair covers, providing a neat, comfortable, and professional setup. The scope shall also include 3 complete tent lighting arrangements, ensuring adequate illumination of the tented area throughout the event. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event, and dismantling after completion. All temporary structures, furnishings, and electrical installations shall comply with applicable safety standards and shall ensure a safe, functional, and aesthetically pleasing environment for visitors and event personnel throughout the event and as per directions of the Engineer-in-Charge.				
5.6	Vidhana Soudha Entry Gate (G-3)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure at Vidhana Soudha Entry Gate (G-3) for a period on the preceding day, operation on the event day unless otherwise specified. The scope shall include 10 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with weatherproof roofing and structural supports, suitable for VIP reception, registration, security screening, waiting areas, or other event-related activities. Provide 4,000 sq.ft. of carpet flooring for all pagoda tents, ensuring proper laying, finishing, and secure installation to provide a clean, safe, and professional walking surface. Furnish the area with 20 tables, each complete with black frill covers, 50 plastic chairs fitted with black chair covers, and 200 banquet-style VIP chairs with decorative frill covers, arranged as per the approved seating layout. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event, and dismantling after completion. All temporary structures and furnishings shall comply with applicable safety standards and shall ensure a safe, functional, and aesthetically pleasing environment throughout the 2-day event. The scope shall also include proper alignment of furniture, housekeeping of the tented area during the event, and restoration of the site upon completion and as per directions of the Engineer-in-Charge.	No’s	1		
5.7	Vidhana Soudha Metro Entrance (G-3) – All Metro Exits				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure at the Vidhana Soudha Metro Entrance (G-3) – All Metro Exits for a period on the preceding day, operation on the event day. The scope shall include 4 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with weatherproof roofing, structural supports, and all necessary accessories to provide sheltered facilities for visitor assistance, information, registration, or crowd management.	No’s	1		

	Furnish the tented areas with 16 tables, complete with table covers, and 20 plastic chairs fitted with black chair covers, arranged as per the approved layout to facilitate smooth event operations. Provide 15 Nos. road barricades for traffic diversion, pedestrian management, and access control around the metro entrances. The barricades shall be securely installed, maintained throughout the event, and removed after completion in coordination with the concerned authorities. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event, and dismantling after completion. All temporary structures, barricades, and furnishings shall comply with applicable safety standards and shall ensure safe, efficient, and orderly movement of visitors and the public throughout the event and as per directions of the Engineer-in-Charge.				
5.8	Waste Management – Dustbins				
	Providing, placing, maintaining, servicing, and remove 50 Nos. portable dustbins at designated locations throughout the event venue for entire event. The dustbins shall be strategically positioned near entry and exit points, food courts, exhibition areas, seating zones, public congregation areas, and other high-footfall locations to facilitate effective waste collection and maintain cleanliness. The contractor shall ensure that all dustbins are of adequate capacity, clean, clearly identifiable, and suitable for temporary outdoor event use. The scope shall include transportation, placement, periodic waste collection and disposal, cleaning of the dustbins during the event, replacement of damaged units if required, and removal after completion of the event. The waste management arrangement shall comply with applicable corporation regulations and shall ensure a clean, hygienic, and environmentally responsible event environment throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.9	Performance Area (Rear of Metro Entrance)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Performance Area (Rear of Metro Entrance) for the event, including installation on the previous day, operation during the event day, and dismantling after completion. The scope shall include 1 No. pagoda tent measuring 20 ft × 20 ft, complete with three-side weatherproof coverings, suitable for accommodating performers, artists, event officials, or backstage support activities. Furnish the tent with 6 tables, each covered with black table cloths, and 10 chairs fitted with black chair covers, arranged as per the approved layout to provide a clean, professional, and functional setup. Provide 100 Nos. barricades for crowd control, access management, and segregation of the performance area from public circulation zones. The barricades shall be securely installed, maintained throughout the event, and removed upon completion of the programme. The contractor shall provide all materials, transportation, labour, installation, anchoring systems, accessories, maintenance during the event,	No’s	1		

	and dismantling after completion. All temporary structures, barricades, and furnishings shall comply with applicable safety standards and shall ensure safe, efficient, and orderly operation of the performance area throughout the event and as per directions of the Engineer-in-Charge.				
5.10	Barricading – Cultural Team Area (Vidhana Soudha Road Stretch)				
	Providing, installing, maintaining, and dismantling temporary barricading for the Cultural Team Area along the Vidhana Soudha Road Stretch. The scope shall include 50 Nos. barricades for crowd control, access restriction, queue management, and segregation of performer movement from public areas. The barricades shall be erected on the day preceding the event, securely installed in accordance with the approved site layout, and maintained throughout the event to ensure the safety and smooth movement of artists, officials, support staff, and the public. The contractor shall provide all materials, transportation, labour, installation, alignment, maintenance, and removal of the barricades immediately after completion of the event. All barricades shall be of sturdy construction, properly interconnected where required, and installed in compliance with applicable safety standards and event management requirements, ensuring safe and effective crowd management throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.11	Barricading – Delay Sound & Speaker Stack Areas				
	Providing, installing, maintaining, and dismantling temporary barricading around the Delay Sound and Speaker Stack Areas. The scope shall include 40 Nos. barricades for securing the delay speaker towers, amplifier locations, and associated technical equipment, preventing unauthorized access while ensuring the safety of the public and technical personnel. The barricades shall be erected on the day preceding the event in accordance with the approved site layout and maintained throughout the event to provide adequate protection for the sound reinforcement equipment and operational areas. The contractor shall provide all materials, transportation, labour, installation, alignment, maintenance, and removal of the barricades immediately after completion of the event. All barricades shall be of robust construction, properly interconnected where required, and installed in compliance with applicable safety standards and event management requirements, ensuring secure equipment protection and effective crowd control throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.12	Barricading – Fire Service Emergency Access				
	Providing, installing, maintaining, and dismantling temporary barricading to designate and protect the Fire Service Emergency Access Corridor. The scope shall include 20 Nos. barricades strategically positioned to establish a clear and unobstructed entry route for fire service vehicles and emergency response personnel. The barricades shall be erected on the day preceding	No’s	1		

	the event in accordance with the approved site layout and maintained throughout the event to ensure that the emergency access corridor remains free from obstructions and unauthorized entry at all times. The contractor shall provide all materials, transportation, labour, installation, alignment, maintenance, and removal of the barricades immediately after completion of the event. All barricades shall be of sturdy construction, securely interconnected where required, and installed in compliance with applicable fire safety regulations and event management requirements, ensuring uninterrupted emergency access and the safety of all participants, officials, and visitors throughout the event and as per directions of the Engineer-in-Charge.				
5.13	Tenting & Temporary Infrastructure – High Court Entrance Road (Opposite Entry–Exit)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure at the High Court Entrance Road (Opposite Entry–Exit). The scope shall include 6 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with two-side weatherproof coverings, suitable for visitor facilitation, security, registration, or event support operations. Provide 20 Nos. barricades for crowd management, pedestrian guidance, and access control around the entry and exit points. Furnish the tented area with 20 tables, each covered with black table cloths, and 20 chairs fitted with black chair covers, arranged as per the approved layout to provide a neat, functional, and professional setup. The contractor shall carry out complete supply, transportation, installation, and testing of all temporary structures and associated infrastructure on the day preceding the event, ensuring that the facilities are fully operational before commencement of the programme. The scope shall also include maintenance throughout the event, dismantling after completion, and restoration of the site to its original condition. All temporary structures, barricades, furnishings, and accessories shall comply with applicable safety standards and event management requirements, ensuring safe, efficient, and orderly operation of the entry and exit facilities and as per directions of the Engineer-in-Charge.	No’s	1		
5.14	Sound & Electrical Control Areas				
	Providing, installing, maintaining, and dismantling temporary shelter arrangements for the Sound and Electrical Control Areas. The scope shall include 15 Nos. canopies, each measuring 10 ft × 10 ft, to provide weather protection for sound control consoles, electrical distribution panels, technical equipment, and operating personnel. The contractor shall carry out complete supply, transportation, installation, and testing of the canopies on the day preceding the event, ensuring that all control areas are fully protected and operational before commencement of the programme. The canopies shall be securely erected with adequate anchoring and shall remain in position throughout the event to safeguard equipment and personnel from adverse weather conditions. The scope shall include all materials,	No’s	1		

	supporting structures, anchoring systems, transportation, labour, installation, maintenance during the event, dismantling after completion, and restoration of the site to its original condition. All temporary structures shall comply with applicable safety standards and shall be suitable for protecting critical sound and electrical control equipment during the event and as per directions of the Engineer-in-Charge.				
5.15	Vidhana Sabha (Inside – Grand Steps)				
	Providing, installing, maintaining, and dismantling complete temporary infrastructure at the Vidhana Sabha – Inside (Grand Steps). The scope shall include 60 Nos. barricades for crowd management, access control, and segregation of VIP and public movement within the designated area. Provide 3 Nos. Chinese canopies, each measuring 10 ft × 10 ft, complete with weatherproof roofing and all necessary supporting accessories to facilitate event operations. Furnish the area with 10 tables, each covered with black table cloths, 20 chairs fitted with black chair covers, and 250 banquet chairs arranged as per the approved seating layout for dignitaries, officials, and invited guests. The contractor shall carry out complete supply, transportation, installation, alignment, and testing of all temporary structures, barricades, furniture, and associated infrastructure on the day preceding the event, ensuring that the entire arrangement is fully operational before commencement of the programme. The scope shall also include maintenance throughout the event, dismantling after completion, and restoration of the site to its original condition. All temporary structures, barricades, furniture, and associated accessories shall comply with applicable safety standards and event management requirements, ensuring safe, orderly, and efficient management of the Grand Steps area during the event and as per directions of the Engineer-in-Charge.	No’s	1		
5.16	Kids Carnival (Makkala Mela)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Kids Carnival (Makkala Mela). The scope shall include 5 Nos. pagoda tents measuring 20 ft × 20 ft, 5 Nos. pagoda tents measuring 15 ft × 15 ft, and 20 Nos. pagoda tents measuring 10 ft × 10 ft, complete with weatherproof roofing and all necessary structural supports, suitable for children's activity zones, interactive stalls, registration counters, and support facilities. Furnish the tented areas with 60 tables, each covered with black table cloths, and 100 chairs fitted with black chair covers, arranged in accordance with the approved event layout to provide adequate seating and operational workspaces for participants, organizers, and visitors. The contractor shall carry out complete supply, transportation, installation, alignment, and testing of all temporary structures, furniture, and associated infrastructure on the day preceding the event, ensuring that the entire Kids Carnival area is fully prepared before commencement of the programme. The scope shall also include maintenance throughout the event, dismantling after completion, and restoration of the site to its original	No’s	1		

	condition. All temporary structures, furnishings, and accessories shall comply with applicable safety standards and event management requirements, ensuring a safe, comfortable, and well-organized environment for children, parents, event staff, and visitors throughout the event and as per directions of the Engineer-in-Charge.				
5.17	High Court Parking (Green Room)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Green Room at the High Court Parking Area. The scope shall include 6 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with three-side weatherproof coverings, suitable for use as artist green rooms, VIP holding areas, and performer preparation spaces. Provide 4,000 sq.ft. of carpet flooring, ensuring proper laying, finishing, and secure installation throughout the green room area. Furnish the tents with 20 tables, each covered with black table cloths, and 50 chairs fitted with black chair covers, arranged as per the approved layout to provide comfortable seating and workspace for artists, performers, and event personnel. The scope shall also include 15 lighting fixtures to provide adequate illumination within the green room area and 10 pedestal or wall-mounted fans to ensure proper ventilation and comfort for occupants. The contractor shall carry out complete supply, transportation, installation, alignment, and testing of all temporary structures, flooring, furniture, lighting, fans, and associated infrastructure on the day preceding the event, ensuring that the green room facilities are fully operational before commencement of the programme. The scope shall also include maintenance throughout the event, dismantling after completion, and restoration of the site to its original condition. All temporary structures, furnishings, electrical installations, and accessories shall comply with applicable safety standards and event management requirements, ensuring a safe, comfortable, and functional green room facility for artists, officials, and event personnel and as per directions of the Engineer-in-Charge.	No’s	1		
5.18	Box Office (GPO Circle)				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for the Box Office at GPO Circle. The scope shall include 3 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with weatherproof roofing and structural supports, suitable for ticketing, registration, visitor assistance, or event information services. Provide 1,200 sq.ft. of grey carpet flooring for the pagoda tents, ensuring proper laying, alignment, and secure installation to provide a clean and safe working environment. Furnish the box office area with 15 tables, each covered with black table cloths, and 15 chairs fitted with black chair covers, arranged in accordance with the approved operational layout. Provide 22 Nos. barricades for queue management, crowd control, and orderly movement of visitors around the box office counters. The barricades shall be securely installed to facilitate safe entry and exit while maintaining	No’s	1		

	efficient pedestrian circulation. The scope shall also include all labour, transportation, loading, unloading, installation, maintenance, dismantling, and site restoration. The contractor shall carry out complete supply, installation, alignment, and testing of all temporary structures and associated infrastructure on the day preceding the event, ensuring that the box office is fully operational before commencement of the programme. All temporary structures, furnishings, carpeting, barricades, and accessories shall comply with applicable safety standards and event management requirements, ensuring safe, efficient, and orderly operation throughout the event and as per directions of the Engineer-in-Charge.				
5.19	Freedom Village				
	Providing, installing, maintaining, and dismantling complete temporary tenting and associated infrastructure for Freedom Village. The scope shall include 10 Nos. pagoda tents, each measuring 20 ft × 20 ft, complete with weatherproof roofing, structural supports, and all necessary accessories, suitable for exhibition, activity, or visitor engagement areas. The scope shall also include 1 complete lighting arrangement to provide adequate illumination throughout the Freedom Village area, including all lighting fixtures, wiring, switching, power distribution, and associated accessories required for safe and efficient operation. The contractor shall carry out complete supply, transportation, installation, alignment, and testing of all temporary structures and lighting systems on the day preceding the event, ensuring that the entire Freedom Village area is fully operational before commencement of the programme. The scope shall also include maintenance throughout the event, dismantling after completion, and restoration of the site to its original condition. All temporary structures, lighting installations, and associated accessories shall comply with applicable safety standards and event management requirements, ensuring a safe, functional, and aesthetically pleasing environment for exhibitors, participants, officials, and visitors throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
6	Fabrication & Structural Works				
	The scope shall include all fabrication materials, structural steel framework, plywood, carpeting, printing, painting, skirting, cladding, finishing, anchoring, hardware, transportation, loading, unloading, labour, erection, alignment, testing, maintenance during the event, dismantling after completion, and restoration of the site to its original condition. All fabricated structures shall be designed to safely withstand the intended loads and shall comply with applicable structural and safety standards and as per directions of the Engineer-in-Charge.				
6.1	Provide, fabricate, transport, install, maintain, and dismantle all temporary fabrication structures and stage elements required for the event. All fabrication works shall be executed using high-quality materials, including MS framework, plywood, MDF, ACP,	No’s	1		

	flex graphics, carpeting, skirting, paint finish, structural supports, and associated hardware, complete with all accessories, labour, tools, and equipment.				
6.2	The scope shall include the fabrication and installation of **1 Entrance Box Arch** measuring **26 ft (W) × 2 ft (D) × 8 ft (H)**, supported by **2 entrance box arch pillars**, each measuring **2 ft × 16 ft × 16 ft**, together with all necessary structural supports to ensure stability and safety.	No's	1		
6.3	Provide and install **double-sided printed backdrops** measuring **20 ft × 10 ft** (**4 Nos.**) and **1 backdrop near the entrance gate** measuring **28 ft × 10 ft**, complete with framing, finishing, and installation.	No's	1		
6.4	Construct **2 performance stages**, each measuring **28 ft × 20 ft × 4 ft**, complete with carpet finish and decorative skirting. The scope shall also include **256 sq.ft. of stage skirting**, **2 sets of stage steps** measuring **8 ft × 4 ft**, **front console masking** measuring **20 ft × 4 ft** (**2 Nos.**), and **4 side console masking panels** measuring **4 ft × 4 ft**.	No's	1		
6.5	Provide **2 inside risers** measuring **16 ft × 4 ft × 4 ft**, **LED skirting on three sides** measuring **24 ft × 4 ft** (**2 Nos.**), and **4 outside risers** measuring **20 ft × 4 ft × 4 ft**, complete with carpet and structural supports.	No's	1		
6.6	Fabricate and install **20 standees** measuring **4 ft × 8 ft** and **40 standees** measuring **6 ft × 3 ft**, complete with printed graphics, supporting frames, and base plates.	No's	1		
6.7	Construct the **Main Stage** measuring **80 ft × 32 ft × 6.5 ft**, complete with customized carpeting, finishing, fascia, and decorative treatments. Provide a complete **Main Stage Set Design** over an area measuring **80 ft × 2 ft × 12 ft**, including scenic elements, branding, cladding, and architectural features as approved.	No's	1		
6.8	Construct a **Media Stage** measuring **30 ft × 4 ft × 4 ft**, complete with decorative skirting, together with a **Freedom Wall** measuring **150 ft × 1 ft × 6 ft**, fabricated with suitable framing and printed graphics. Provide **stage skirting** for stage heights up to **78 inches**, complete with fabric finish.	No's	1		
6.9	Provide **2 sets of steps with handrails**, each measuring **8 ft × 6.5 ft**, ensuring safe access to elevated platforms. Construct **1 carpeted stage** measuring **18 ft × 4 ft × 4 ft**, complete with **52 sq.ft. of stage skirting**. Fabricate the **VIP Area platform** measuring **260 ft × 18 ft × 2.5 ft**, complete with carpeting, skirting, and finishing.	No's	1		
6.10	Provide **2 Nos. box-type main console masking units** measuring **30 ft × 4 ft** in a back-to-back configuration, together with **2 side masking panels** measuring **4 ft × 4 ft**. Construct **4 carpeted camera risers** measuring **12 ft × 4 ft × 4 ft** and **2 road camera risers** measuring **6 ft × 4 ft × 1 ft**, complete with **4 additional access steps** wherever required.	No's	1		
7	Master of Ceremonies (MC) & Event Anchoring Services				
	Provide the services of 2 professional Master of Ceremonies (MCs) and 1 professional female MC for hosting and conducting	No's	1		

	the event. The MCs shall be available from 12:00 PM to 10:00 PM on the event day and shall be responsible for the seamless presentation and coordination of all stage proceedings. The scope of work shall include pre-event site visits, coordination meetings with the event organizers, programme planning, script preparation, agenda review, and research on the event schedule, dignitaries, performances, exhibitors, and participating organizations to ensure accurate and effective stage presentation. During the event, the MCs shall be responsible for compering the entire programme, introducing dignitaries, artists, speakers, and performers; providing stage announcements; narrating the significance of various activities; coordinating programme transitions; making public announcements; engaging with the audience; coordinating with the production, audio, lighting, and technical teams; managing stage flow and timing; and ensuring continuous audience interaction and participation throughout the event. The contractor shall ensure that both MCs maintain a professional standard of presentation, possess excellent communication skills in the required languages, and coordinate closely with the event management team to ensure smooth execution of the programme. The engagement shall include all professional fees, travel, rehearsals, coordination meetings, script preparation, and all incidental expenses necessary for successful delivery of the event hosting services and as per directions of the Engineer-in-Charge.				
8	VJ Technician Services				
	Provide the services of 2 experienced VJ (Video Jockey) Technicians for the operation, management, and coordination of all video display systems during the event. The VJ technicians shall be responsible for handling and operating all 6 LED walls installed across the venue, ensuring synchronized and uninterrupted visual content throughout the programme. The scope of work shall include operation of the video switching and playback systems, live video feed management, content playback, graphics display, live camera switching, and real-time video and audio synchronization across all LED display screens. The VJ technicians shall coordinate closely with the Main Stage Production Team, Sound Engineers, Lighting Team, Camera Crew, and Vision Mixer Operators to ensure seamless integration of live performances, presentations, announcements, and multimedia content. The VJ technicians shall also be responsible for pre-event system testing, content verification, screen mapping, signal routing, troubleshooting, and continuous monitoring of all LED display systems. Complete testing, configuration, and commissioning of the LED systems shall be carried out on the day preceding the event to ensure all displays are fully operational before commencement of the programme. The contractor shall provide all professional manpower, technical expertise, operational support, and coordination necessary to ensure smooth, synchronized, and uninterrupted visual production across all LED walls throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		

9	Portable Bio-Toilets with Operations & Maintenance				
	Provide, transport, install, operate, maintain, service, and dismantle **60 Nos**. portable bio-toilets at designated locations around the event venue, as approved by the Event Management Team and the concerned authorities. The placement of the toilets shall ensure convenient access for visitors while maintaining appropriate separation from food service areas, performance spaces, emergency access routes, and public congregation zones. Each bio-toilet shall be of robust, weather-resistant construction and shall be equipped with a functional toilet unit, hand-wash facility or hand sanitizer dispenser, adequate water storage, flushing arrangement, ventilation, internal lighting (where required), occupancy latch, tissue holder, waste holding tank, deodorizing system, and non-slip flooring. The contractor shall ensure continuous availability of water supply and utility connections, including refilling of water tanks as required throughout the event. The scope shall include the installation of directional and identification signage for all toilet locations to facilitate easy public access. All units shall be securely installed, levelled, and made fully operational on the day preceding the event. Deploy **20 dedicated housekeeping personnel** in shifts for continuous cleaning, sanitation, replenishment of consumables, waste management, and preventive maintenance of all toilet facilities throughout the event. The housekeeping staff shall ensure that the toilets remain clean, hygienic, odour-free, and fully functional at all times. Consumables including toilet tissue, liquid soap, hand sanitizer, deodorizing chemicals, cleaning agents, disinfectants, and other hygiene materials shall be replenished whenever required. The contractor shall be responsible for periodic waste evacuation from holding tanks using authorized disposal methods, immediate rectification of any operational issues, and compliance with all applicable public health, sanitation, environmental, and municipal regulations. The scope shall include all transportation, loading, unloading, installation, water supply arrangements, labour, supervision, cleaning equipment, consumables, maintenance, dismantling after completion of the event, and restoration of the site to its original condition. All bio-toilet units and associated services shall comply with applicable health, environmental, sanitation, and safety standards, ensuring a clean, hygienic, safe, and accessible sanitation facility for visitors, participants, officials, and event staff throughout the event and as per directions of the Engineer-in-Charge.	No’s	1		
10	Housekeeping, Cleaning & Waste Management Services				
	Provide comprehensive housekeeping, cleaning, and waste management services for the entire Ambedkar Veedhi and adjoining event areas. The scope shall include the deployment of 30 housekeeping personnel for maintaining cleanliness, sanitation, and hygiene throughout the event site, including all public areas, pedestrian pathways, seating zones, exhibition	No’s	1		

	areas, food courts, entry and exit points, backstage areas, green rooms, toilet locations, parking areas, and all other designated event spaces. The housekeeping services shall commence one day prior to the event for initial site cleaning, preparation, placement of waste management infrastructure, and readiness of the venue. The deployed personnel shall continue to maintain the venue throughout the event and shall undertake complete post-event cleaning, waste removal, and restoration of the site immediately after completion of the programme. The contractor shall provide all cleaning equipment, including brooms, mops, brushes, floor cleaning tools, waste collection trolleys, litter pickers, cleaning machines (where required), disinfectants, detergents, garbage bags, personal protective equipment (PPE), and all other consumables necessary for effective housekeeping operations. and as per directions of the Engineer-in-Charge.				
11	Event Coverage, Documentation & Staffing– Cultural Area				
	Provide comprehensive event coverage, technical production support, and operational staffing for the Cultural Area. The scope shall include complete deployment of professional equipment, technical personnel, and event support staff to ensure seamless production, documentation, and coordination throughout the programme. Provide 4 Nos. confetti blowers, complete with sufficient confetti cartridges for ceremonial effects during designated performances and key event segments. Deploy 35 volunteers (5 volunteers in each of the 7 designated event zones) to assist with audience management, artist coordination, information services, backstage support, and general event operations. The event coverage shall include 1 Jimmy Jib camera system for dynamic aerial camera movements, 2 HD broadcast cameras, 4 gimbal camera systems for stabilized mobile videography, and 2 side-angle 4K focus cameras to capture performances and audience interactions from multiple perspectives. Provide 1 vision mixer for real-time switching and distribution of video feeds to all delay LED display systems, ensuring synchronized visual coverage across the venue. Deploy 4 professional photographers for comprehensive still photography coverage of the event, together with 1 dedicated technical team responsible for coordination, operation, troubleshooting, and management of the video production and broadcast systems. The scope shall also include the design, printing, and supply of 200 crew identification badges with lanyards for authorized personnel, facilitating controlled access to operational, technical, backstage, and restricted areas. The contractor shall carry out complete supply, transportation, installation, testing, commissioning, operation, and coordination of all equipment and personnel on the day preceding the event, ensuring that all systems are fully operational before commencement of the programme. The scope shall also include dismantling, equipment removal, and restoration of the site after completion of the event. All services shall be executed by experienced professionals in accordance with industry best practices, ensuring high-quality	No’s	1		

	event production, documentation, and operational support and as per directions of the Engineer-in-Charge.				
12	Vanity Van Services				
	Provide 5 Nos. premium double-door vanity vans for artists, dignitaries, performers, and VIP guests, complete with transportation, installation, operation, maintenance, and removal after completion of the event. The vanity vans shall be positioned at designated locations as approved by the Event Management Team and shall be made available and fully operational prior to commencement of the programme.Each vanity van shall be fully air-conditioned with working HVAC systems, equipped with an attached restroom, adequate interior lighting, mirrors, dressing counters, seating arrangements, changing area, power outlets, and all standard amenities required for artist preparation and comfort. Each van shall also be provided with a dedicated generator (DG) power supply or an equivalent uninterrupted power source to ensure continuous operation of the air-conditioning and onboard electrical systems throughout the event. The contractor shall provide light refreshments, including packaged drinking water, tea, coffee, soft beverages, and snacks, with periodic replenishment as required during the event. Each vanity van shall be attended by 1 dedicated support personnel, responsible for housekeeping, coordination, guest assistance, replenishment of refreshments, and ensuring that the facility remains clean, hygienic, and fully functional throughout the event. The scope shall include all transportation to and from the venue, positioning of the vans, fuel, generator operation, utilities, housekeeping, technical support, driver charges, manpower, statutory permits (if applicable), maintenance, and removal after completion of the event. All vanity vans shall be clean, well-maintained, mechanically sound, and compliant with applicable road transport, electrical, fire safety, and public safety regulations, ensuring a comfortable, secure, and professional facility for artists and dignitaries during the event and as per directions of the Engineer-in-Charge.	No’s	1		
13	Artist Line-up, Live Music Performance & Technical Crew				
	Providing complete artist management, talent coordination, technical support, hospitality, logistics, and performance management services for the cultural programme, including engagement and management of 9 headline performing artists, 8 musician band members, and 12 technical crew members, along with all associated coordination required for successful execution of the performances. The scope shall include the engagement, scheduling, coordination, transportation (where applicable), hospitality, backstage management, rehearsal coordination, stage call management, and performance execution for the featured artists on prior approval. The performances shall be supported by the Bengaluru Freedom Collective, comprising an 8-member live musician band, providing accompaniment and musical performance as per the approved programme schedule. The	No’s	1		

	contractor shall also deploy a dedicated professional technical crew comprising 2 Sound Engineers, 2 Lighting Engineers, 2 Special Effects (SFX) Operators, 1 Production Manager, 2 Stage Technicians, 2 Tour Managers, and 6 Media Team personnel responsible for photography, videography, artist documentation, backstage coordination, and media support. The scope of work shall include artist liaison, rehearsal scheduling, technical coordination, stage management, backstage operations, artist hospitality, green room coordination, performance cue management, and coordination with the event production, audio, lighting, LED, and event management teams to ensure seamless transitions between performances. The contractor shall be responsible for all artist management services, professional fees, technical coordination, logistics, travel (where applicable), backstage support, rehearsals, communication, scheduling, manpower, and operational assistance necessary for the successful execution of the cultural performances. All artists and technical personnel shall report as per the approved production schedule, with rehearsals and technical checks completed prior to commencement of the event, ensuring uninterrupted, high-quality performances throughout the programme and as per directions of the Engineer-in-Charge.				
14	Pyrotechnics, Fireworks & Special Effects				
	Provide a complete Pyrotechnics, Fireworks & Special Effects (SFX) System for the event, including a professionally choreographed 3-minute display synchronized with the event programme. The scope shall include CO_2 Jets, Stadium Blasters, Stadium Shots, Flame Effects, Comets, Mines, Tails, and Aerial Shells, along with all required firing systems, launch stands, safety matting, consumables, transportation, installation, testing, operation, dismantling, and debris clearance. Deploy 10 trained pyrotechnic crew and provide 4 fire extinguishers at the firing locations. The contractor shall obtain all statutory approvals, licences, and safety clearances from the competent authorities and execute the display in compliance with applicable fire safety and explosives regulations, ensuring safe and synchronized operation throughout the event. All pyrotechnic and special effects activities shall be carried out in accordance with applicable fire safety regulations, explosives handling standards, environmental guidelines, and event safety protocols, ensuring the highest level of safety for performers, officials, spectators, event staff, and surrounding property and as per directions of the Engineer-in-Charge.	No’s	1		
15	Walking Museum – Production, Setup, Artist Management & Experience				
	Provide complete concept development, production, fabrication, installation, artist management, décor, and operation of a Walking Museum around the Mahatma Gandhi Pedestal, featuring a 10 ft × 10 ft tunnel structure with themed fabric cladding and immersive interior décor. The scope shall include	No’s	1		

	the design and creation of 9 themed zones depicting the Indian Freedom Struggle, complete with curated artifacts, artworks, graphics, and storytelling displays along the tunnel walls. Deploy 5 trained artists to enact historical characters and provide a live storytelling experience for visitors in each zone. The contractor shall be responsible for historical research, script development, artist training and rehearsals, visitor engagement, and distribution of commemorative postcards/reward cards to visitors upon completion of each zone experience. Provide 10 supporting staff for visitor management, operations, and coordination. The scope shall also include transportation, installation, dismantling, and supply of all supporting infrastructure including generator power, lighting, sound system, floor matting, and all accessories required for the successful operation of the Walking Museum. All works shall be completed before the event and executed in compliance with applicable safety standards and the approved design and as per directions of the Engineer-in-Charge.				
16	Constitution Square – Replica, Illumination & Public Engagement along with prizes				
	Provide complete design, fabrication, installation, illumination, programming, and management of the Constitution Square as an interactive public engagement zone. The scope shall include the installation of a minimum 12 ft × 6 ft illuminated replica of the Preamble to the Constitution of India, complete with structural framework, lighting, and decorative finishing. The contractor shall create a curated gallery featuring the Members of the Constituent Assembly and display a minimum of 8 rare photographs from the original Constitution of India with appropriate graphics and interpretative content. Organize a collective reading of the Preamble every 30 minutes from 1:00 PM to 5:00 PM, led by 4 professional singers performing the reading in a musical format to encourage public participation. The scope shall also include coordination of audience engagement activities, prize distribution (where applicable), transportation, installation, lighting, sound support, manpower, and dismantling after the event. All installations and activities shall be completed prior to the event and executed in accordance with the approved design and safety standards and as per directions of the Engineer-in-Charge.	No’s	1		
17	Freedom Village – District Exhibition, Artist Engagement & Visitor				
	Provide complete planning, production, fabrication, installation, district coordination, artist management, décor, and visitor engagement for the Freedom Village along the Vidhana Soudha inner road. The scope shall include the installation of a minimum of 20 kiosk counters, each measuring 10 ft × 10 ft, complete with thematic décor representing the participating districts. Mobilize and coordinate a minimum of 20 district groups, comprising at least 2 representatives per district, to manage and operate the respective district counters. Deploy a minimum of 15 professional artists to portray district-specific freedom fighters, historical	No’s	1		

	events, and cultural heritage through live performances and storytelling. Each counter shall be provided with thematic artwork and décor, 1 table, 2 chairs, lighting, floor matting, and generator power supply. The contractor shall also organize visitor engagement activities, including quiz programmes, and provide 100 reward prizes for participants. The scope shall include orientation and in-person training for all district representatives, transportation, installation, coordination, operations, dismantling, and all manpower required for successful execution. All installations and activities shall be completed prior to the event and executed in accordance with the approved design and applicable safety standards and as per directions of the Engineer-in-Charge.				
18	Freedom Wall – Installation & Public Artwork Activity				
	Provide complete design, fabrication, installation, operation, and dismantling of the Freedom Wall, comprising 1 No. display wall measuring 150 ft × 6 ft, complete with printed flex/fabric mounted on a suitable raised structural framework with supporting stands. The scope shall include deployment of 4 facilitators to coordinate and manage the public artwork and message-writing activity. Supply 25 permanent markers/pens for visitor participation and ensure continuous supervision of the activity throughout the event. The contractor shall provide all structural supports, framing, artwork installation, transportation, labour, erection, dismantling, and site restoration. The Freedom Wall shall be securely installed prior to the event and maintained throughout the programme in compliance with applicable safety standards and as per directions of the Engineer-in-Charge.	No’s	1		
19	Hospitality Services for Parade Participants				
	Provide complete hospitality, seating, refreshment, and participant management services for approximately 1,800 parade participants representing multiple participating groups. The scope shall include the supply and distribution of tea/coffee and one snack for each participant. Arrange adequate seating facilities, safe drinking water, and green room/resting facilities for participants before and after the parade. Deploy 6 support staff for hospitality management, participant assistance, queue management, coordination, and assembly area operations. The contractor shall provide all refreshments, serving arrangements, furniture, manpower, transportation, setup, housekeeping, and dismantling required to ensure smooth and efficient hospitality services in accordance with applicable food safety and hygiene standards and as per directions of the Engineer-in-Charge.	No’s	1		
20	Rewards and Prizes				
	Provide complete design, procurement, customization, packaging, transportation, and distribution of 750 reward items for visitor engagement activities and competitions conducted across the event venue. The rewards shall comprise customized mugs, water	No’s	1		

	bottles, seed pens, or equivalent eco-friendly souvenirs, carrying the approved event branding and artwork. The scope shall include creative design, branding, quality packaging, and preparation of all reward items. The contractor shall also manage the distribution of rewards to winners of quizzes, competitions, and other engagement activities across various event zones through designated personnel. The scope includes all materials, transportation, handling, manpower, and logistics required for timely and efficient distribution of the prizes during the event and as per directions of the Engineer-in-Charge.				
21	Refreshments for Dignitaries & Event Staff (Coffee / Tea and snacks)				
	Provide complete refreshment, distribution, and hospitality services for approximately 1,500 dignitaries, officials, volunteers, technical crew, and event staff engaged in the event. The scope shall include the supply and distribution of one serving of tea or coffee along with one snack/food item for each person. The contractor shall establish refreshment kiosks/counters at designated locations for efficient distribution and crowd management. Deploy 6 housekeeping/support staff for refreshment service, replenishment, cleanliness, waste collection, and maintenance of the kiosk areas throughout the distribution period. The scope shall include procurement of refreshments, kiosk setup, serving equipment, disposable or eco-friendly serving materials, manpower, transportation, housekeeping, cleaning, dismantling, and restoration of the distribution areas after completion of the event. All food preparation, handling, and service shall comply with applicable food safety, hygiene, and sanitation standards and as per directions of the Engineer-in-Charge.	No’s	1		
22	CCTV Surveillance & Monitoring System				
	The contractor shall deploy qualified technical personnel for installation, testing, live monitoring, operation, troubleshooting, and maintenance of the CCTV system throughout the event. Complete installation, testing, camera alignment, network configuration, and commissioning shall be carried out on the day preceding the event to ensure that the surveillance system is fully operational before commencement of the programme. The scope shall also include dismantling, removal of all equipment, and restoration of the site after completion of the event.				
	Providing, installing, testing, commissioning, operating, monitoring, and dismantling a complete temporary CCTV Surveillance and Monitoring System for the event, ensuring comprehensive security coverage of the venue, entry and exit points, public congregation areas, performance zones, exhibition areas, parking locations, and all designated sensitive locations. The scope shall include the supply and installation of **240 Nos**. CCTV cameras, each with a minimum specification of **2 MP Full HD (1920 × 1080)** resolution, featuring up to 4K progressive CMOS image sensors capable of providing clear facial	No’s	1		

	identification and high-quality video recording under varying lighting conditions. All cameras shall be housed in suitable weatherproof enclosures and interconnected using Category-6 (Cat-6) cabling, complete with all necessary accessories, connectors, junction boxes, power supplies, network switches, and mounting hardware.The cameras shall be securely mounted on existing poles, trees, and other approved structures along the planned event periphery and at strategic locations identified in consultation with the event organizers and security agencies. All installations shall be carried out without causing damage to existing infrastructure and shall comply with applicable electrical and safety standards. Provide 2 fully equipped CCTV Control Rooms for centralized surveillance and monitoring. Each control room shall be furnished with the required monitoring equipment, including LED televisions/monitor displays (10 Nos. in total), Digital Video Recorders (DVRs)/Network Video Recorders (NVRs) of adequate capacity for continuous recording of all camera feeds, together with the required chairs, tables, lighting arrangements, networking equipment, storage devices, power backup, and other operational furniture and accessories necessary for uninterrupted surveillance. The entire CCTV surveillance system shall provide continuous live monitoring and recording, ensuring reliable security surveillance, incident monitoring, crowd management support, and coordination with law enforcement and emergency response agencies throughout the event and as per directions of the Engineer-in-Charge.				
23	Additional LED Wall Display System with Sound (4 complete Outdoor LED Wall Display Systems)				
	Provide 4 complete Outdoor LED Wall Display Systems at designated locations outside the main venue, each comprising a P3.9 Outdoor LED Wall measuring approximately 16.04 ft × 9.84 ft (947 sq.ft. total display area), complete with all supporting AV and structural infrastructure. Each LED setup shall include the required VX4S LED processors, fiber optic cabling, laptops/media playback systems, console masking, LED riser/platform, and three-side decorative skirting, together with complete installation, testing, commissioning, operation, and dismantling. The scope shall also include a complete sound reinforcement system for each LED display location, dedicated generator power supply, power and signal cabling, and deployment of 4 technical support personnel for operation, monitoring, and coordination during the event. The contractor shall provide all transportation, structural supports, installation, testing, maintenance, dismantling, and site restoration. All systems shall be fully installed and commissioned prior to the event and shall comply with applicable electrical, structural, and safety standards, ensuring uninterrupted audio-visual coverage throughout the programme and as per directions of the Engineer-in-Charge.	No’s	1		
24	Live Feed Production & Camera Coverage				
	Provide complete live video production and broadcast services for	No’	1		

	the event. The scope shall include deployment of 3 camera teams, each comprising 3 personnel, equipped with 2 mobile cameras and 1 stationary camera for comprehensive live coverage of the event across all designated locations. Provide 1 professional VJ/Vision Mixer Operator for real-time switching and live video mixing of all camera feeds for display on LED screens and recording systems. A dedicated camera platform/stage shall be provided for the stationary camera team to ensure stable and unobstructed coverage of the main event. The scope shall also include 4 walkie-talkies for coordination between the camera crews, production team, and stage management. The contractor shall provide all cameras, lenses, tripods, stabilization equipment, video transmission systems, cabling, manpower, transportation, installation, testing, operation, dismantling, and all accessories required for seamless live production and coordination throughout the event and as per directions of the Engineer-in-Charge.	s			
25	QR Code Registration, Entry Management & Manpower				
	Provide a complete QR Code-based visitor registration and entry management system integrated with the appointed registration platform/vendor for seamless visitor access control at the event venue. The scope shall include the development and deployment of a QR Code generation and validation solution, database management, server/cloud-based application, internet connectivity, and real-time verification of visitor registrations. The system shall support secure QR code creation, scanning, validation, reporting, and entry monitoring. Deploy 36 trained operators and 6 supervisors in suitable shifts across 3 designated entry gates for scanning and verifying visitor QR codes and managing entry operations. Provide the required QR code scanners/handheld scanning devices, tablets or mobile terminals (where required), networking equipment, and all associated software and hardware necessary for uninterrupted operation. The contractor shall be responsible for complete system integration, testing, technical support, troubleshooting, manpower, transportation, operation during the event, and post-event data handover, ensuring efficient, secure, and seamless visitor entry management throughout the programme and as per directions of the Engineer-in-Charge.	No’s	1		
26	Design, Printing & Branding Materials (Mugs, T- shirts, Lanyards, Event badges, Flags etc)				
	Provide complete design, artwork development, printing, branding, production, and supply of event branding and promotional materials as per the approved design and specifications. The scope shall include the design and production of 500 customized mugs, 500 branded T-shirts, 500 printed lanyards, 500 event badges, 500 flags, and 30 event signages, complete with high-quality printing, branding, finishing, and packaging. The contractor shall be responsible for creative design, artwork approvals, procurement of materials, printing,	No’s	1		

	quality control, transportation, delivery to the event venue, and distribution (where required). All printed materials shall be of durable quality, professionally finished, and produced in accordance with the approved event branding guidelines and specifications and as per directions of the Engineer-in-Charge.				
27	Event Décor & Venue Branding				
	Providing complete design, fabrication, supply, installation, maintenance, and dismantling of event décor and venue branding elements across the designated event areas. The scope shall include the installation and operation of 4 confetti machines along Ambedkar Veedhi for ceremonial effects, installation of decorative buntings across the venue, and complete design, production, and installation of all bunting and décor materials in accordance with the approved event theme. Provide and install 10 decorative standees at designated locations for branding and wayfinding purposes. Deploy adequate support staff for installation, maintenance, monitoring, and removal of all décor elements. The contractor shall provide all materials, fabrication, transportation, labour, equipment, installation, maintenance during the event, dismantling, and restoration of the site. All décor and branding materials shall be securely installed, aesthetically finished, weather-resistant, and compliant with applicable safety standards and the approved event design guidelines and as per directions of the Engineer-in-Charge.	No’s	1		
28	Insurance				
	The contractor shall obtain and maintain all necessary insurance policies covering the event and associated works for the entire contract period, including installation, event operation, and dismantling. The insurance shall include, but not be limited to, Public Liability Insurance, Third-Party Liability Insurance, Workmen/Employee Compensation Insurance, Contractor's All Risk (CAR) Insurance (where applicable), Plant, Equipment and Material Insurance, and Transit Insurance for all materials and equipment brought to the venue. The contractor shall ensure adequate insurance coverage for all personnel, artists, volunteers, subcontractors, equipment, temporary structures, and event infrastructure against accidental loss, damage, injury, death, theft, fire, natural calamities, and other insurable risks arising during execution of the work. Copies of valid insurance policies, premium payment receipts, and statutory compliance documents shall be submitted to the Employer before commencement of the work. The contractor shall remain solely responsible for any loss, damage, injury, claim, or liability arising out of the execution of the contract and shall indemnify the Employer against all such claims in accordance with the conditions of the contract and as per directions of the Engineer-in-Charge.	No’s	1		
29	Video Teams, Quiz, Prizes & On-Ground Engagement				
	Providing complete video documentation, visitor engagement,	No’	1		

	quiz management, artist coordination, and prize distribution services across the event venue. The scope shall include deployment of 4 video teams, each comprising 1 professional videographer and 1 quiz master, to conduct on-ground interactions, capture visitor experiences, and manage engagement activities. The contractor shall design, prepare, and implement interactive quiz programmes for a minimum of 200 visitors, including preparation of quiz content, moderation, scoring, and participant coordination. Deploy 4 professional artists portraying freedom fighters to enhance the visitor experience through live interactions and themed performances. The contractor shall also procure, transport, and distribute prizes to quiz winners and manage all logistics associated with the engagement activities. The scope includes all manpower, equipment, transportation, coordination, implementation, and operational support required for successful execution of the video coverage, quiz activities, artist engagement, and prize distribution throughout the event and as per directions of the Engineer-in-Charge.	s			
30	Social Media Content, Campaign & Digital Promotion				
	Provide complete social media campaign planning, content creation, digital promotion, influencer engagement, and audience outreach for the event across major social media platforms. The scope shall include the creation of promotional content, including reels, short videos, creatives, and campaign posts, together with content curation and scheduled publishing across approved social media channels. The contractor shall execute paid digital advertising and post boosting on Meta platforms (Facebook and Instagram), targeting audiences across Bengaluru to maximize event awareness, reach, and engagement. Organize an Influencer High Tea Meet for a minimum of 40 influencers, each having at least 10,000 followers, including coordination, invitations, hospitality, and engagement activities. Provide 40 branded takeaway kits/gifts for participating influencers. The scope shall also include campaign strategy, audience targeting, advertisement management, performance monitoring, content optimization, engagement with users, and distribution of promotional content across relevant social media platforms. The contractor shall provide all manpower, creative resources, logistics, coordination, and reporting necessary for successful execution of the digital campaign and publicity activities and as per directions of the Engineer-in-Charge.	No’s	1		
31	Frisking & Security Equipment				
	Provide complete security screening equipment, installation, operation support, and dismantling services for visitor access control at the event venue. The scope shall include the hiring of 15 walk-through metal detectors for installation prior to the event and operation during the event, along with transportation, installation, testing, generator power supply, dismantling, and return transportation. The contractor shall coordinate with the	No’s	1		

	Police Department and designated security agencies to facilitate smooth frisking and visitor screening operations. Provide 3 baggage scanner systems complete with transportation, installation, testing, power supply, operation support, and dismantling. The scope shall also include the supply of 5 megaphones, 5 bullhorns, and 3 exit turnstile units for crowd management and controlled visitor movement. The contractor shall provide all necessary manpower for installation and technical support, along with cabling, accessories, transportation, and logistics. All equipment shall be installed, tested, and made fully operational prior to the event and shall comply with applicable security, electrical, and safety standards and as per directions of the Engineer-in-Charge.
